

Here's what some of our great patients are saying about Collins Chiropractic and How Advanced Chiropractic and Nutritional care have helped them!

I felt like I was dying. I had pain all over my body. I had pain in my feet, my back, my shoulders, my knees and even had pain in my arms. I would have had more pain in my hands but they were numb most of the time.

I also realized that I wasn't able to think clearly. My brain wasn't working right and my short term memory was pretty much gone.

To add insult to injury, my energy was for nothing. I didn't have enough get up and go to get through my busy day. Forget the "go" part, I didn't even have the get up. I couldn't sleep either and I was getting colds and flues all the time. I was depressed and terrified if my health deteriorated a little more, I would be putting my family in severe financial difficulty. I barely got through my 2004-2005 season. My interventions from the medical world were pretty pathetic. I was given pain killers, muscle relaxants, antidepressants and sleeping pills. Sound familiar? I had no idea what was going on and neither did my medical doctor. When there weren't really any answers, there seemed to be always more drugs. When I wasn't depressed, beneath that was an ever emerging hopelessness.

I found out about Collins Chiropractic and the work Dr. Victor did with my type of condition from a friend of a patient there. I was evaluated and was found to have a set of problems, both bio-chemically and physically that added up to where I was and how sick I felt.

Within the first week of treatments, I noticed my pain level started to drop off and I sensed we were going in the right direction. Within 3 weeks, I was feeling distinctly better and I knew we were going in the right direction. All of my physical pain and numbness were getting better each visit. I was given exercises and I was feeling like participating in life again.

Then we started in on the nutritional part and I soon learned that one of my businesses, involving toxic sprays, had done a lot of damage to my organs. We cleaned up my liver and gallbladder and we started to fix my energy producing glands (my adrenals and thyroid).

Where are we now? My businesses (yes that is plural) are doing very well. I am excited to get out of bed and I absolutely love my life. Where would I be without these wonderful people!! That you doesn't even begin to say it all for me.

-Anthony I.

Dr. Victor is wonderful. He takes me seriously, unlike many MD's I've been too. I've been coming here for about a year and I feel much better than I ever have. The supplements are great, especially the Liquid Iodine. I had a problem with my sinuses and after one or two years it completely went away. (After having it for several weeks). And I would recommend him to anyone, and the staff is very friendly!

-Theresa G.

A big thank you to Dr. Victor Collins for reducing my back and hip pain. The pain was making riding horses so difficult, but now I am riding again!

-Jackie H.
